Your Planetary Day

While the calendar we use in the West dates from the 1500s, the seven days of the week have repeated without interruption for over two millennia. From ancient times, each day of the week has been associated with the Sun, Moon or one of the five visible planets. The weekday on which you were born shows where you stand in this ancient seven-fold cycle, and gives you a special link with the quality of its planetary ruler.

You were born on a Wednesday.

This is the day of Mercury, well known as the messenger of the gods and ruler of intelligence, communication, transportation and commerce. Mercury also rules mediumship, magic and the mantic arts, and was the guider of souls in the underworld. In English, Wednesday is named after the great Norse god Woden, who much like Mercury was associated with writing, wisdom, poetry, and also with prophecy, magic, shape-shifting and disguise. Dual in nature, Mercury rules trickery as well as truth, and is as hard to pin down as his metal, quicksilver. The German name for Wednesday means simply mid-week, and of the seven directions of space, Mercury signifies the middle. In the Kabbalah, Mercury is associated with Raphael, the civilizing angel. “Wednesday’s child is full of woe.” — *Harper’s Weekly*, 1887.

About Personal Numerology

The report that follows explores the numerological meaning of your birth date and the full name that was given to you at birth. Its aim is to make you more aware of the tendencies and patterns in your life, so that you can live more consciously, and more fully become the person you were meant to be.

As you read the following pages, remember that they describe pure types for each number. No one, of course, exhibits these character traits in their pure form. Instead, each of us is multi-dimensional, made up of many energy imperatives vying for expression. Some energies harmonize easily, while others are at cross-purposes, causing us to live with contradictions and inner conflicts. Our task is to honor all parts of ourselves and work at bringing our disparate selves into some kind of balance and cooperation. By making us more aware of our inner tendencies, numerology can help us to do this all-important work on ourselves.

In our families and other groups of which we are a part, some behaviors are encouraged and others are discouraged. If who we are wasn’t acceptable, we probably contorted ourselves to be what others wanted us to be. If so, we may have become what is called a “turn-type.”

For example, we may negatively manifest a number by expressing its opposite, as when the independent number 1 type becomes extremely dependent. Alternatively, the energy is out of balance and expressed extremely, as when the daring number 1 type becomes foolhardy. Or the energy is not developed enough, so that the number 1 is cowardly instead of courageous.

Because we feel that a certain trait is unacceptable and unworthy of us according to the biases of our family, superiors or peers, we may not be able to relate to it in ourselves. We may then spend many years discovering who we really are apart from other people’s expectations of us.

Studies such as numerology can help us find our way out of this maze, orienting us toward our true being and the highest manifestation of what we are. They can give us an objective picture of our strengths and weaknesses, show us our place in the larger scheme of things, and help us find the hidden gold in our characters, which we may not have even suspected that we had.

How Numerology Works. Through the use of ancient principles, numerology can derive a world of meaning from your birthdate and birth name. In the course of your life other numbers may become important for you, and you will probably acquire other names, but, like your astrological birth chart, the numerological vibrations at the very beginning of your life set the tone for all that follows.

To find the meaning inherent in your day, month and year of birth, numerologists add the digits in various ways. Most totals turn out to be more than one digit. They therefore reduce them to a single digit by adding the digits together. Whenever a total turns out to be a master number like 11 or 22, however, it is left as-is. These doubled numbers have a special significance, and are given special interpretations.

To find the numerological meaning of your name, numerology assigns a number to each letter of the alphabet. In the Pythagorean system used in this report, A = 1, B = 2, and so on through the first nine letters, and then we repeat the cycle through the rest of the alphabet. We then total the numbers corresponding to the vowels, the numbers corresponding to the consonants, and the numbers corresponding to all the letters to determine specific things about your character.

Each digit from 1 to 9 represents a specific stage in a cycle and has its own set of associations. In general, the odd numbers are considered introverted, in the sense of being primarily focused on inner life. The even numbers tend toward extroversion: that is, being primarily focused on outer activities. The numbers 1, 6, and 22, however, are considered dual in nature.

This said, let us now look first at your basic character and the major themes in your life.

Your Life Path

The total of the day, month and year of your birth is called by numerologists the Life Path, Life Lesson, Birth Path, Birth Force or, sometimes, the Destiny number. This number is chosen by nature rather than by you or your parents, and it reflects the season and historical era of your birth. As its names suggest, it shows your mission in life, your life work and what the universe intends for you. It shows the opportunities you must seize in order to make the most of your potential. Following the life path that has been given to you will enable you to avoid continual discord and frustration, and to unfold in the way that is best for your nature. When you find your true place in the world, you will feel at home.

Your birthdate total is 7.

Your Life Path of 7 means that your destiny lies with the mental and spiritual: the path of study and the search for life's meaning. A certain solitude is necessary for your development. Your natural aloofness and detachment aren't well suited to superficial social relationships or heavy family responsibility. It's important that you specialize in a philosophical or scientific field. Don't be aggressive; instead, let opportunities come to you.

What Motivates You in Life

We now move on to the name that you were given at birth. We first look at the total of the vowels in your full birth name, because this shows the emotional force that drives all that you do. Various known as the Motivation, Soul Urge, Heart's Desire, or Inner Self number, the vowel total shows what you want out of life. Along with the Impression and Expression numbers that will be discussed below, it is a basic component of your character.

The vowel total in your name is 11/2.

As a Motivation number, the master number 11 indicates the potential for creative genius. You could be a special person possessing great vision and ideals, one who sees beyond ordinary horizons. You tend to be the dreamer who envisions a better world, but who can have difficulties adjusting to the realities of this one. To see your ideas take form, you need to work at developing the practical side of your nature. It helps to have a strong, down-to-earth partner who understands your most special spirit and who can help you to accomplish your goals.

As a master number, 11 is too high and potent a vibration to be used continuously. You will find that it is, in fact, a 2 vibration that motivates you in daily life. At the 2 level, you desire much love and understanding, and are at your best when following another person's ideas or direction within a marriage or other type of partnership. Highly motivated to cooperate with others, you enjoy sharing. Your life centers around a harmonious and peaceful existence, a life that is comfortable, but where the material aspects take second place to human and social values.

Colors, gems and metals have number vibrations, too. When you're feeling the inspiration of your 11 vibration and wish to relax and be at peace with yourself, wear the color silver or the metal platinum. When you're feeling the more human 2 vibration and want to relax, you should wear orange as a color and the moonstone as a gem.

More about Your Emotions and Motivations

The first vowel in your first name augments or mitigates the force of the vowel total, and gives additional information about your emotional nature and underlying motivations in life. It manifests differently depending on whether the vowel sound is long or short. The long vowel gives a more direct and forthright expression, while the expression of the short vowel is more muted.

The first vowel in your name is A.

"A" feels courageous and daring, and gives you the soul of a warrior. Often you do not look before you leap, impulsively getting yourself into more hot water than you'd like. But you have the dash and flair to extricate yourself no matter what. You like to be on the front line, and are not afraid to go out on a limb for your beliefs. Preferring to be the one in control, you do not take well to authority. You want to call the shots and go it alone, because you are often too impatient to wait for others.

The Impression You Give to Others

The total of the consonants in your name is known as the Impression, Personality, Outer Self or Adapted Self number. As its names suggest, this number signifies your persona, the face you show to the world. It shows the vibrations that you project, how others see you, and the kind of impression that you make on those around you. This has its origin in your illusions and fantasies, the world you create for yourself in daydreams. Given enough energy, your fantasies become reality, because you tend to become who you think you are.

Your consonant total is 33/6.

Your Impression number is the master number 33. In your loftier moments, you see yourself as having a strong relationship with the divine, and you dream of devoting yourself to a great cause. You have a drive to understand, to forgive, and to serve those who are ready to serve themselves, and in order to do this you see yourself taking on a life of heavy responsibility. If you live this dream out with wisdom and discrimination and let your impulses come truly from the heart, the compassion you feel will be the kind that see results and empowers rather than weakens. If it is just an image that you are putting on, however, you run the risk of enabling the destructive behavior of others or at the very least wasting energy on lost causes.

When you are in a less elevated mood, you may project a more modest 6 vibration, seeing yourself as the creator of a balanced, humane and just environment where others can thrive without conflict or problems. This dream most commonly takes the form of a warm and welcoming home, a family to care for, and a loyal mate who stands by you throughout life.

Your Impression color is deep blue, and your Impression gems are the pearl and sapphire. Wear these when you want to be sociable and enjoy the company of others.

The Way You Express Yourself

The total of all the letters in your full name is variously called the Expression, Mission or Life Purpose number. Composed of both the vowels and the consonants, it represents the blending of your inner and outer selves. It thus shows the natural expression of your goals and desires: what you do best, and, by extension, your talents and career potential. It also indicates how you deal with the outside world: your style of solving problems, getting things done, and negotiating with others to attain what you would consider success.

Your name total is 8.

The Expression number 8 makes you the business leader, the organizer and the practical achiever. You get what you want through resolve and stamina. You have an air of authority that instills confidence, and your innate business sense attracts success. You're quick to seize opportunity and enlist others to help you. Power comes easily to you, and it is sometimes hard for you to relinquish your natural tendency to dominate.

When you want to be businesslike, try wearing rose as your Expression color and the diamond as your Expression gem.

Careers Offering the Best Self-Expression

With 8 as your Expression number, consider these kinds of jobs:

The Boss: bank director, manufacturer, military officer, head of a public institution, publishing executive, corporation head, real estate developer, developer of chain stores or franchises, contractor, financier, judge, buyer, office manager, coach.

On Stage: public official, orchestra leader, promoter.

Service: banker, cashier, broker, compiler, engineer, shipper, corporation or tax lawyer, purchasing agent, insurance agent, business consultant, investment advisor, office worker at a credit or loan company or stock brokerage.

Just You: statistician, critic, business analyst.

Best Bet: any job dealing with money, big business or power.

The Power You Can Achieve in Maturity

The total of the day, month and year of your birth and your full name at birth is known variously as the Power, Maturity, Reality, Real Self, Final Opportunity, Destiny or Goal Power number. A summation of both your name and your birthdate, this number shows how the two principal streams of energy converge to fulfill the purposes of your true self. The Power number is of great significance because it gives a clue as to what your ultimate life purpose might be.

This vibration usually becomes manifest only in the later part of your life. In the first half of life it tends to exist only as a potential. In these earlier years you live through many experiences that temper and define your character and aptitudes. Not until the age of 35 or 40 do most people live through enough life events to find their life purpose and develop it to the point where it becomes their main focus and direction. It is then that fulfillment comes. But this is usually achieved only after many false starts, and years of struggling to gain self-knowledge.

Finding your right place in life is gratifying. If you have not pushed through to this achievement, you can be dissatisfied and unhappy. You may feel at loose ends, without direction, rudderless and ill at ease. But if you have lived your life in accord with the purpose that was meant to be fulfilled in this life, you will find contentment and peace of mind.

What follows is the mature expression of your Power number. Mature development is not about living out someone else's idea of what you should be. It has more to do with honoring your own way of being in the world and moving from your own center. It is about trusting the process of unfoldment that exists within each of us and making this your guiding principle.

The total of your name and birthdate is 6.

A Power number of 6 signifies an overriding desire to create harmony and balance. Six is the archetype of the Caregiver. Sixes have a rock-solid reputation for being loyal, dependable and conscientious, and they continually attract situations that require these traits. Wanting to live responsibly, they protect and provide for those in their keeping and are steadfast in their devotion to loved ones.

Sixes give time, attention and loving care not just to their families, but also to friends and even to casual acquaintances. Because of this, they make faithful and steadfast life-long friends. They sense another's needs, and freely give of themselves. Through their own sympathetic knowing, they are intuitively able to heal. They are good at helping others sort out and clarify their problems, choose options and find solutions. They create a safe place for people who are in need, and happily lend support in a crisis. Their homes reflect their love of comfort and all that is pleasant, and often become havens for the troubled and perplexed. Also at home on Mother Earth, sixes sense the underlying rhythm of nature, and are able to move in harmony with the cycle of the seasons.

Tarot Key 6: The Lovers

To gain further insights about your Power number, it can help to look at the Tarot trump that corresponds to it. In your case, this is the card called the Lovers. The card depicts a couple watched over by an angel who hovers above them, representing the higher force that unifies opposites. This card obviously signifies romantic love, but in a wider sense it points to the love that people find when they place their ideals of service and dedication, of truth and justice, above their own personal welfare. This may work out first in the personal sphere, and then in the progressively widening spheres of family, community, and humanity.

Your Karmic Lessons

Karma numbers are digits that are completely missing in the letters of your name as given at birth. Most people have one or more Karma numbers. These missing digits serve as a guide to the areas of your life and personality that may be lacking. Such areas will benefit from special attention. If you ignore these blind spots, life can have a painful way of making you notice them. This, however, can eventually spur you forward on the path to wisdom. When you develop yourself in these areas, you will feel much more whole and complete.

The number 3 is missing in your name.

With a 3 Karma number, you may lack self-confidence and have problems expressing yourself. Contact with the public can help you to overcome your inhibitions.

The number 7 is missing in your name.

With a Karma number of 7, it's possible that you have many fears and anxieties. You will find that the path out of your worry is to develop your intellect and spirituality.

The number 8 is missing in your name.

With an 8 Karma number, you are ambitious, but your judgment may not always be the best. You must learn the value of money, and find out how to use power responsibly.

Your Subconscious Response

Your Subconscious Response is related to how many Karma numbers you have. It shows the way you tend to react in emergencies, when you have no time to consult your intellect.

Your Subconscious Response number is 6.

In rough times, you think first of your family, friends, loved ones and possessions. You are very protective of what is yours, and your responses are generally practical and responsible. The main thing to be aware of is that your sentimental attachments tend to win out, even in situations where a more reasoned approach would be more appropriate.

Your Youth, Maturity and Later Years

So far, we've discussed the number vibrations that stay with you throughout your life. Now we move on to the three major periods of your life as shown by your Life Cycle numbers. These are derived from reducing the digits in your month, day and year of birth. The sum of the month digits describes the first period; the day, the second period; and the year, the third period.

***Your First Life Cycle starts at birth and lasts until age 30.
Its number is 8.***

The 8 vibration is a great deal of power for youth to handle. You will be drawn to mastering the material aspects of life early, leading and directing others and possibly amassing a certain amount of power and money at an early age. Because you may not yet have had the chance to develop empathy, when pursuing your own goals you may tend to disregard the rights and feelings of others. Lacking life experience, you may need guidance in order to develop good judgment, especially about money.

During the First Life Cycle, your Life Path number and your First Minor Challenge number are also especially important influences.

***Your Second Life Cycle starts at age 30 and lasts until age 57.
Its number is 1.***

This is an especially good vibration for the middle cycle, because it allows you to become truly independent and to work on your self-development. This is an ideal period to launch your own business or a new career. There can be strain on partnerships, however, if your need for self-assertion during this time is not understood.

During this Life Cycle or the next, your Power number generally begins to manifest.

***Your Third Life Cycle starts at age 57 and lasts until death.
Its number is 7.***

Late in life, your activities tend to take a philosophical turn. You will become increasingly involved with quiet reflection and the search for knowledge. Others will seek your guidance, but you will find solitude necessary to develop the inner peace that will prove to be your great strength.

Major Decision or Turning Points in Your Life

Your Turning Points or Pinnacles are also derived from your full birthdate. Each of them defines a period in your life and the special issues that you will face during that period. As their name suggests, Turning Points show points of choice where you need to make decisions. Besides showing the issues at stake, the Turning Point number indicates the choice that will be best for you. Turning Points are like tests that you must pass before proceeding forward. The happiness that you feel in a given Turning Point period depends on the choices you've made and the skills you've developed when faced with the previous Turning Point.

Your First Turning Point starts at birth and lasts until age 34.

Its number is 9.

This youthful Turning Point may face you with change or loss at an early age. For a young person it may be especially difficult to deal with the intense emotions involved, and to love and give even though there may be no return. Nevertheless, during a 9 vibration this is where happiness lies. The more you rise to this challenge, the more beautiful life will seem to you. If you work for the good of others, you may be able to achieve money and success quite early in life.

Your Second Turning Point starts at age 35 and lasts until age 44.

Its number is 8.

The next nine years of your life will heighten your interest in money and the acquisition of power and material comfort. Your test is how you will handle a yuppie-like lifestyle. Will you use your gifts and organizational skills only for personal gratification, or will you use them to create something of lasting value for the world? The choice you make will affect your sense of happiness and satisfaction during your next Turning Point period.

Your Third Turning Point starts at age 45 and lasts until age 54.

Its number is 8.

This 8 vibration in the prime of your life gives you the chance for prosperity and power when it is most natural to achieve it. If you've laid the foundations in earlier years, your wealth and fame can be considerable. Your choice is to exercise this power for either your own ego gratification or for the good of others as well as yourself.

Your Fourth Turning Point starts at age 55 and lasts until death.

Its number is 6.

In the last period of your life, a 6 vibration calls you to build a secure and cozy retreat for you and your loved ones. At this time of life it is especially important to guard against becoming set in your routine and rigid in your opinions. If responsibilities are thrust upon you for care of your loved ones, you have the choice of whether or not to accept your duties wholeheartedly. Will this be just another burden to bear, or will you use it for practice in opening your heart and discovering strengths you never knew you had? The choice is yours.

The Challenges You Will Meet

Everyone is born with special lessons to be learned. Again, your full birth date has inherent in it two Minor Challenges that are usually presented to you earlier in life, and a Major Challenge that is lifelong but which you will probably get to master only later in life.

Challenges may at first present themselves to you as external obstacles to your progress, but they arise from the deficiencies that you are born with, parts that are lacking or underdeveloped. Once you can determine exactly what the weak link is, you can make a conscious effort to strengthen that trait within yourself. This takes willpower and may sometimes feel as if you are going against the grain, but it pays off abundantly in terms of progress and success in life. As you tackle each challenge, your fears are pushed back, your scope enlarges, and you feel more comfortable in the world.

Your First Minor Challenge number is 7.

The First Minor Challenge usually crops up early in life. When its number is 7, you may feel very much alone and cut off from your peers. So much of your energy may be turned inward that there is none available in your conscious life and you may feel quite depressed. To feel more comfortable and connected, you must learn to direct your energies outward and to express your own feelings and ideas to others. Getting a good education will help you develop your analytical powers and put this 7 vibration to good use. When you overcome your reserve and feel more at home in the outside world, you will find that others have much to gain from your deep thought and rich inner life.

Your Second Minor Challenge number is 6.

The Second Minor Challenge is about aspects of your character that you need to work on during your Second Life Cycle, from about ages 35 to 62. With a Challenge of 6, you may need to learn to be helpful and responsible without meddling in others' lives and trying to direct what they think and do. You may need to reexamine your own firmly held philosophy of life and grant the validity of others' opinions. When you learn to be more flexible, your relationships will improve and deepen, and all the hard work you have put into them will now seem to have a point.

Your Major Challenge number is 1.

You face your Major Challenge throughout life. Most likely, however, you will find yourself needing to do the most work on it during your Third Life Cycle, after the lesser challenges have been met. With a Challenge number of 1, you must fight to overcome a sense of being held down by those with stronger wills. To meet this challenge, you must learn to assert your independence and discover your own individuality, while at the same time respecting the rights of others.

Your Best Activities for the Year

Your Personal Year number combines your birth month and day with the current year. Personal Year numbers go in a recurring nine-year cycle of development. Each time you go around the cycle you have a chance to do things with added wisdom and skill. Keeping your activities in tune with your current year vibration can make your existence more harmonious and keep your unfoldment upon its intended track.

Some numerologists believe that the new personal year number begins on January 1st of the new year. Others believe that it doesn't change until your birthday on that year, so that up until your birthday you would be using the personal year number for the preceding calendar year.

Your Personal Year number beginning on Aug 10 2021 is 14/5

A 5 Personal Year is a time to lift your nose from the grindstone and go adventuring. If you've been diligent in your 4 year, it's now time to break away from your routine and refresh yourself. Try meeting new people, going to new places, involving yourself in new situations, and participating in a wide variety of activities. Opportunity won't necessarily come knocking at your door, so put yourself out there and see what comes your way. The excitement level is high, and the energy is there for the untried and the unusual. Like the 1 Personal Year, this is a pivotal time for shifts, twists and turns, so prepare yourself for the unexpected. The keyword for this year is Change. If you bounce along with the tide and remember to keep circulating, this should be a year of progress.

Your Personal Year number beginning on Aug 10 2022 is 15/6

In this 6 Personal Year, relationships will be a major focus and you may need to make some adjustments in this area of your life. Money and jobs are not likely to be a problem, and your energies now best directed toward home, family and friends. It is time really to take responsibility for those about whom you care. If your responsibilities toward others become heavy this year, remember that meeting them wholeheartedly can add immense emotional richness to your life. So, for now, put career demands and a desire for self-assertion and self-expression on the back burner. Concentrate on creating a loving home life and possibly also on making your physical home more comfortable and pleasing. In all ways, it is time to seek harmony and balance in your relationships and personal life. The keyword to remember this year is Harmonize.

Where Do We Go from Here?

If this report has aroused your curiosity and you want to learn more, you may find that exploring your numbers with a deck of Tarot cards is an excellent means for further self- reflection.

Suppose that your birth date were August 19, 1962. The Tarot trump that you would look at for the month would be 8 (Strength, or in some decks, Justice). For the day, you would look at 19 (the Sun), $1+9=10$ (the Wheel of Fortune), and, reducing it even further, $1+0=1$ (the Magician). For the year, you would look at $1+9+6+2=18$ (the Moon), and possibly also $1+8=9$ (the Hermit).

These cards would have something to say about you and how you express these traits as you follow your destiny. Our example birth date would have the Sun in Leo, and trump 19, the Sun, would reinforce the Leo symbolism. You could see that the person is a hard worker (8) with a sunny disposition (19) who is aware of the changes in fortune that life can bring (10). Extremely creative (1), he is also a sensitive, caring person who is tuned in to other people's feelings (18).

It is instructive to buy a Tarot deck, put one of your cards up for a few days, and mull over the symbolism. Remember that there are no truly negative numbers or cards. All participate in the experiences of the soul as it passes through life.

Even trump 15, the Devil, has its place. Everyone has traits that create stumbling blocks or weaknesses. When we work to overcome these we achieve maturity and become more sympathetic to the weaknesses that we see in others. This may be an important focus for a soul with the number 15 prominent.

Also, trump 13, the so-called Death card, is often misunderstood. Remember that in the cycle of seasons the leaves fall and winter comes, but this death is only the precursor of the life that bursts forth in the spring. Life is not all white light and bubbles. There are dark clouds of pain and frustration as well. It's all part of the cycle.

Whatever you find your numbers to be, remember that nobody has it all down pat. We all have plenty to learn. We do have a choice, however. We can, if we wish, fight against our destiny or try to ignore it. Or we can, as the great psychoanalyst C.G. Jung put it, "do willingly what we must do by necessity." Viewing ourselves through the lens of studies such as numerology, the Tarot and astrology, we gain a clearer picture of what our own necessity is, and can then travel more consciously on our life's intended path.
