A Locality Interpretation Prepared for Nicholas Cage

INTRODUCTION

One thing is certain about you, no matter where you are -- you're one of the people who gets a lot out of life because you look beneath appearances and are willing to think for yourself, astrology being somewhat off the beaten track these days. So what is ASTRO*CARTO*GRAPHY*EXPLAINED? It's based on the common, instinctive idea that a person has different chances, luck, experiences or options in different localities -- that you aren't exactly the same person in New York that you are in Los Angeles. It works by looking at the planets' relationships to the places you've asked about at your birth moment. If a particular planet was especially powerful in the location noted when you were born, then the affairs that it symbolizes should predominate if you travel there, reside there or even have anything to do with that location from some other place.

Since 1976, when the now-standard ASTRO*CARTO*GRAPHY technique was introduced, wide acceptance by both the astrological community and the public has validated it. In addition, ASTRO*CARTO*GRAPHY has been able to benefit from the actual experiences of the thousands who have ordered its maps. The product of this experience is this new service.

WHY DO PEOPLE MOVE?

To understand how this information will be useful, perhaps we should question why people move around so much in the first place. In addition to the obvious reasons are psychological ones. Psychologists (Carl Jung especially) have suggested that people instinctively seek wholeness, or a completeness of their experience. If it's true that different locations accent different parts of your potentials, moving offers a way to speed evolution, to get acquainted with new parts of yourself. So if you find that a location you are obliged to reside at is one in which some of the more problematical influences predominate (such as Saturn, Neptune, etc.), you should look beneath the superficial and immediate desires and concerns of your life and try to understand what emerging consciousness has brought you here. Every location is good for something, and you would not be considering living in a difficult one for no reason. Also, don't get frightened if some of the interpretations sound extreme or perilous. Every planet has numerous possible manifestations, and, while we've tried to include them all here, rarely do the more extreme ones occur. The point in this report is to enable you to anticipate the nature of influences at your potential residence and so become able to recognize and utilize their most positive manifestations.

Different people are apt to react differently to the same astrological influence. You will feel more comfortable with what you already know, so certain planets will be easier for you to live under than others. For example, if you are a woman with traditional values, Mars and the Sun will possibly pose more problems for you than for a man, since the qualities and life experiences associated with these planets are not usually socially encouraged in women's upbringing. Similarly, men will find the Moon and Venus more challenging. People who tend to follow

external authorities and believe in society's order as unchallengeable may find themselves more at home under Jupiter and Saturn lines, and stressed by new experiences under Uranus, Neptune, and Pluto, while individualists and the more self-reliant will reverse these reactions.

You might find it useful to realize that, when faced with challenging astrological potentials, it is sometimes easy to "project" these onto your mate or partner, seeing the emerging parts of your own psyche as things THEY are doing. If your interpretations seem to fit your mate, realize that these things are happening because of possibilities in yourself that you aren't ready to face, and try to develop the positive sides of the astrological potentials described.

EVERY PLACE IS GOOD FOR SOMETHING

But the most important thing to realize is that every location is good for something; if you recognize and understand its potentials, you can use them constructively. You'll find that in some instances you don't even have to travel or live in the location -- that its influence affects you through people who come from there, or remote concerns, such as business, cultural or other life interests that symbolize those psychological potentials described by this report.

So here goes with the ASTRO*CARTO*GRAPHY*EXPLAINED analysis of the locations you're interested in. We hope it opens up for you opportunities to find what you're looking for in life; but we also hope it enables you to look beneath the surface, to see patterns in your own development and your instinctive growth toward wholeness.

Los Angeles, CA

To understand the following influence, you should be aware that it is very strong; while reading the description of its psychological and particular manifestations below, keep in mind that you will be drawn into these types of activity almost beyond your will, and that residence here is probably a very significant chapter in your life, one that makes you aware, as never before, of the potentials that are embodied by the astrological effects operating here at your birth. If you do not feel that you wish to deal with these matters as a major part of your day-to-day life, perhaps you should consider residing elsewhere, or at least 300 miles east or west of this location, where the influence is apt to be more moderated.

Jupiter-Imum Coeli:

IF YOU'RE JUST VISITING, YOU'LL WANT TO COME BACK

This is a very positive zone to visit, as you consort with a better class of people, attract favorable attention to yourself, seem to acquire new social status and power, and love to spend money. Even if you're not a gambler, don't leave without spending a few dollars on lottery tickets, as this is a very lucky zone, one that increases both your desire for speculation and your odds of winning. It's also a place of religious truth and revelation, dealings with authorities, and chance meetings with the powerful and wealthy, where you could find yourself treated like royalty. Your ideas attract favorable attention, perhaps even offers for publication.

STAYING HERE: THE TAMING POWER OF THE GREAT

Jupiter's power here assures that the central theme of this area is growth through "adding-on" or accretion, so that evolution, deeper participation in experience, and cultural outreach are likely while you reside here, through broadening contact with the world and a "better" class of people. You feel that you are protected by forces or deities favorable to you, and belief in this favoritism gives you an optimistic, omnipotent outlook which encourages you to dare the impossible, exceed your limits, and ascend personally and socially. This is where "wishing makes it so," as hope and faith expand; you come to feel deserving of special treatment by the cosmos which, because you expect it, occurs, particularly extraordinary good luck and social or financial advancement. "Sanctuary" and protection by authorities can be expected; bourgeois values and self-evaluation become prominent here, as you feel distinguished from the mass of humanity, somewhat righteous, self-satisfied, complacent, important, or self-important in community concerns.

The issue of class is very Jupiterian, and you engage in a competition of decency, trying to outdo the Joneses (or maybe the Rockefellers), impressing the world with your attainments, credentials, diplomas, and possessions. The "right" people (especially "professionals") are not to be questioned, and social ascendancy is hierarchical, tradition-based, conservative, and middle

class, marked by a contradictory need to feel "special" and an unquestioning addiction to fashion and public opinion. People in academic, bureaucratic, administrative, and professional circles rise quickly here, though the attendant temptation to fulfillment of ambition is abandonment of life's meanings, values, and goals in favor of complacent self-satisfaction.

THE OMNIPOTENT EXECUTIVE

Jupiter's myth is, of course, that of the "chief administrator" of Mount Olympus. Jupiter, or Zeus, was symbolized as justice, light, and intellect, as opposed to the dark earth god Saturn or the god of the underworld Hades. The problem of this zone stems from Jupiter's inherent superiority, which is often interpreted as an imperialistic privilege to ride roughshod over the rights of others. Positively, Jupiter's insight grants foresight, psychic powers, innate leadership, superiority, and understanding of the patterns and structures of the universe; negatively, it breeds blind fundamentalism, intolerance, self-righteousness, superstition, bigotry, xenophobia, and a barren morality that condemns whatever is not just like itself.

In its immature stages, Jupiter consciousness is usually marked with some of the above-mentioned excesses -- having found the "truth" (oneself), any other reality or person must accept your higher vision or be seen as infidel to be forcefully "converted." There is also a bragging, boastful bullyishness; arrogant, imperialistic self-centeredness, and a feeling that you have the right to dominate anyone else by mere reason of who, and how important, you are. This belief is underlain by an infantile expectation that the world is created by your needs in order to fulfill them. Greater maturity finds you dominating through kindness, becoming the philanthropist, humanitarian or liberal who magnanimously wishes all others to have the opportunity to attain the heights of social acceptance and success that you have attained and seeks to offer such opportunities (whether asked for or not).

Wisdom, exuberance, and humor are Jupiter's attainment in full flower, and here is the philosopher-king, generous, benevolent, divinely inspired, able to guide the community and humanity as a whole to a realization of its highest visions. The moral guardians of the state -- judges, academics, artists, musicians, and religious and charitable leaders -- embody this most perfected image of the potentials of this zone and, under its most positive influence, the patterning of ideas that constitute humanity's cultural heritage and knowledge of the past. This ability to comprehend the future can be grasped and understood, putting you in a powerful social role of leader and guide.

DOES "MORE" REALLY MEAN "BETTER"?

People will be content here who value society and its rewards and who aspire to the roles described above. Jupiter zones are less favorable for strong individualists, those who enjoy challenge and pitting themselves against authority and the odds -- those who espouse their own morality and values, as well as the truly creative and independent. This is the place for you if you have a taste for caviar and your eyes light up when a limousine passes by. You'll love it if you feel you are "going someplace" in society and have a vision and commitment to culture, religion, law, education, or the other professions. It could be unfulfilling if you are not typical of your class or family background, consider yourself "self-made," and find TV sitcoms boring.

As a man, you will probably react to this zone's opportunities for social advancement and improvement of status by making the most of them, furthering your education and technical

skills and raising your expectations of yourself a notch or two. The problem here may be overconfidence and the intolerant excesses enumerated above. You tend to act without doing enough homework, rely overly on connections and the power of "credentials," and get yourself into situations where you're getting by on appearances and favoritism. These dangers aside, this is a very beneficial zone where success can come in sport, profession, career, and social attainments and where you feel good about yourself and what you can do.

THE WINNERS' CIRCLE

The conventional interpretation of "good luck" seems to be acquiring an abundance of material goods or social status without expending much effort. If this is what you want in life, this is the right place to be. Prosperity, success, credibility, honor, academic achievement, and accomplishment are furthered here as life proceeds effortlessly, you climb socially, and leisure, nonproductive activity and bourgeois conformity are frequent rewards. This zone accents humor, education, religion, quality, integrity, prizes, and mental and cultural accomplishments, and here you are more optimistic, extroverted, and relaxed. Health improves (except where there are problems of overindulgence or sluggish activity), as do magical and healing abilities. In addition to this being a place where you can heal others, any sort of business prospers and succeeds here, as do self-improvement and creativity. Your mind aspires to the lofty, trying to create patterns that explain the universe, and things are seen in general rather than particular context, so that you grasp wholes more easily than details or parts. Music, sports, religion, publishing, media, broadcasting, advertising, promotion, business, import-export, education, the law, finance, medicine, languages, foreign concerns, and travel are all professions that do very well under this influence.

Gambling and speculation are successful here, and this zone is one in which large sums of money may be won (and sometimes lost) in such activities. You might want to try your luck here or invest in companies whose head offices lie within this zone. But beware of blind optimism, extravagance, going into debt to impress others, overgenerosity, and snobbishness -- all dangers of this area. Resist comparing yourself too much to others and getting caught up in totally nonessential, fashionable activity of little enduring value. Notwithstanding these potential hazards, this is one of the most optimistic, successful, and fortunate zones possible, especially for any sort of business or material pursuits.

GOOD LUCK FROM AFAR

Even if you can't travel to this area, it is apt to be significant in your life as a source of sustenance, income, and success. People who come from here can be guides, teachers, mentors, or financial benefactors. Investment in companies or industries based here will tend to prosper, and education (even by correspondence courses) can establish a cornerstone of lifelong success. Cultural concerns are inviting here, and you may like to read about this zone or find its religion, language, or ethnic roots interesting and important.

The particular position that Jupiter occupied in this location at your birth will direct this type of energy and experience particularly into certain life areas; while the most important thing to understand is the underlying meaning and psychological principle, these are apt to manifest more obviously in specific life areas than in others.

IMPROVING YOUR FAMILY

This zone will particularly emphasize personal evolution and expansion through commitment to your location, family, or ethnic self-conceptualization. Moreover, your family, past, and concept of your background may "improve" -- that is, you could elevate your social station through marriage or other family interactions or increase your own estimation of your family and background through becoming acquainted with previously unknown aspects of your past, roots, heritage, financial background, or other allied issues. Your family develops a tradition, grows a family tree, and learns pride in its traditions and heritage. From this growth of an inner sense of tradition and belonging, you develop a greater sense of inner worth and self-esteem which extends itself eventually into other life areas, with resultant good fortune and expansion of career, personal, and social options. Your true inner self is identified by genealogy and a constant centering of self in past and tradition; others react to this by gravitating to your seeming security, sense of purpose, and belonging on earth.

This is an especially good place to reside or retire, and family life prospers here as nowhere else. There is hope for a secure and respected old age as you become matriarch or patriarch, pillar of society, and perhaps a successful, though usually conservative, politician. (But with such success is always the danger of the "big frog" complex.) Real estate increases in value here, and you can make things grow, live off the land, or become a landlord. This is your place on earth, in which the seeds of your potential development find fertilization, and your good fortune enables you to care for less fortunate persons, founding a sort of extended family and acting as living proof of the order of the universe as reproduced in microcosm in the family. Here, in your personal Garden of Eden, you cease struggle with the outer world to build inner worth, sharing your success with those closest to you and pursuing your own religious and social fulfillment. Even short-term residence here can have these effects, changing forever your concept of where you came from and thus where you are going.

This location lies a little to the west of the exact planetary influence; therefore, of the possibilities listed above, those which suggest the direct influence on you by your family, cultural, or ethnic background are the ones most likely to manifest. The planet tends to act outside of you, and polarizes your self-image in opposition to its more negative potentials, requiring by either positive example or direct coercion your development of the described qualities. Who you are, meaning in this case who your family, past, and "roots" have been, becomes a potent force in the creation of who you are growing to be, a force whose nature will conform closely to the description above. Living here will change these most inward of concepts of self, often by direct confrontation with your origins and past.

SECONDARY INFLUENCES

The material presented above describes the most potent and significant planetary influences operating at the location you have designated at the time of your birth. It is these concerns and manifestations that should demand your concentrated attention, and it could be suggested that it is to assimilate and understand this type of experience that you have considered residence in this locale. However, there are additional, less potent influences, that also operate here, due to the geographical latitude at which it is located, a latitude that has special importance for you. These influences will constitute a "subplot" or subsidiary influence while you are here, influences of about one-third the power of the major ones described above, and ones which are apt to manifest

in relationships especially -- with either you or your partner acting them out.

Due to the similarity of the following influence with others noted above, you should view it as potentially more significant, and expect that it will be closely associated with the major planetary effects described above.

Mars*Jupiter:

MIGHT MAKES RIGHT

This locale is especially good for athletic accomplishment and physical culture; your competitive nature is sharpened, and strength and virility expand, evidenced by a delight in sports, hard outdoor work, contests, adventure, and power. As well as the athletic theme, there is a military one, and the command or organization of human energy may be attempted here; overconfidence and your tendency to take risks are the pitfalls in such pursuits. Still, military success or a symbolic equivalent may come for some in this area.

You may imprudently grasp for power, "take arms against a sea of troubles," only to find that most of them were self-created, often by the dogmatism and moral myopia that is also characteristic of this location. Always in a hurry (a source of some imprudence), you expand and evolve masculine, military, and "macho" life concerns, though often learn lessons the hard way. A satirical and biting wit, lack of moderation in your pursuit of sensory pleasure, strong sexual needs, and monetary extravagance define you as a colorful personality who seems to have money to burn, as well as the ability to replenish the large sums thoughtlessly spent -- others' as well as your own. It seems impossible to save but easy to borrow, and people instinctively believe in your obviously virile ability to create wealth and energy.

The James Bond, Hemingwayesque he-man image manifests here (no matter what your sex) -- a gallantry and coolness in the face of danger, along with a lovable coarseness, and not-so-lovable opportunism and expedient set of morals. Your personality and life concerns may involve foreign and exotic places or safari-type adventures as courage increases, along with an imperialistic, authority-respecting, militant, and vigorous charisma. The problem comes when you try to decide what values and social realities deserve your energetic allegiance; morally, you tend to see things in childish, black-and-white terms. You may become something of a bigot, imposing your controversial ideas of the universe on the infidels, with imperialistic, militant, unquestioning narrow-mindedness. At worst, this may evince as a zealous might-makes-right self-righteousness masked under religious hypocrisy or self-serving sophistry. Daring, adventuresome, and courageous, you make or lose fortunes with equanimity and thirst for life and adventure.

Even though the following influence is subtle, it can be developed, especially if it seems compatible with your personality or with other influences operating in this location. Look upon it as a potential resource constituting an occasional or less important preoccupation.

Mars*Neptune:

SEX AND DRUGS -- OR PEOPLE WHO LIKE THEM

A positive, down-to-earth attitude toward masculinity and sex are critical here, for without them this zone can be a real nightmare. Ideally, like hippies, you live out a more archaic masculine archetype, one in tune with natural and mystical forces and respondent to intuition and inspiration. You will be rarely content to let ambitions and career concerns pursue commonplace objectives; there must be mystery, singularity, and magic and, in some cases, you are able to bring such fantasy into reality through wishing and visualization, as well as to influence people (almost against their will) through charisma. Your power over others is implicitly sexual, resulting in an ability to seem to be everyone's sexual fantasy or, alternatively, to see everyone as yours. In either case, extremes of indulgence or asceticism result. In fact, this is probably the most sexually bizarre zone possible, and just about everything erotic you've ever heard of may present weird or unpleasant options to you. You may find yourself enthralled by people you don't really like, and you can revel in impurity or unusual practices; fetishes, particularly masculine ones (leather, guns, etc.), may develop as well.

You may exhibit unusual imagination and intuition in business and particularly in arts involving motion and energy -- dance, gymnastics, ballet, etc. -- but usually aspirations are all out of proportion with reality, except in a few cases where you actually become a symbol for beauty and sex -- TV stars, media athletes, and models occasionally succeed spectacularly here. For those uncomfortable with the masculine archetype (which includes most members of modern society), this location can be fantastically unpleasant: illnesses (including venereal ones), unprovoked attacks from strangers, allergies, victimization by society or its lower elements, problems with parasites (the two- or six-legged varieties), drug habituation, sexual problems, paranoia, and neurosis are some of the less glamorous aspects of this zone, the evidence of what seems an indefinably hostile environment, in which the forces that attack you are invisible, covert, or unconscious, often stemming from within.

At best, this area may see you defend the underdog through nonviolent means and Gandhian ingenuity, but for the most part you can't count on your allies, and humiliation, defeat, and victimization are too often the result of your effort to implement your ideals.

These, then, are the important astrological influences which affect this location, now and in the future. Needless to say, they all won't manifest the moment you arrive, but will indeed emerge as the most powerful psychological potentials over time.

EPILOGUE

This concludes our enumeration and description of the planetary influences, permanent and temporary, that affect the locations that you submitted. As you have observed, some of the information is psychological in nature, as it is the belief of ASTRO*CARTO*GRAPHY that planets act, not through any mystical "power" or magic, but by paralleling potentials in the human psyche, and in orderly and comprehensible fashion, marking the development of this maturity. It is hoped that you are able in this way to see that there are really no "good" or "bad" locations for you -- that in the process of growing into mature completeness, you will have to experience every psychological possibility. At best, this report will work to inform you what these are for you in the locations you are considering, letting you know what to expect, and so empowering you to be able to utilize the most positive possibilities.
